

Comet Nursery School

5 by 5

5 things to do by 5 years old.
At Comet we want children to have lots of different experiences that will help them in life. It will support language development and children's cultural capital.

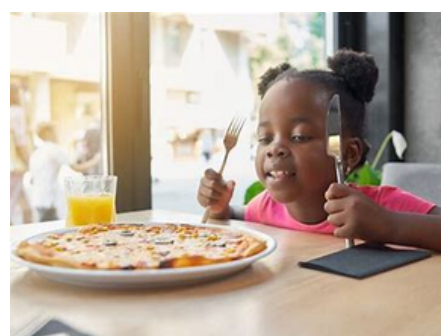

2. Visit a museum or go to the theatre

We will offer children an opportunity to visit a museum or theatre, or maybe the theatre will come to us!

1. Go to a restaurant or make a snack

Visit a restaurant and choose what to eat from the menu or make a small snack that you take with you on an outing or picnic.

3. Grow a plant or a vegetable

Children can work with our gardener to grow their own plants or vegetable. They will learn what they need to do to look after it.

4. Make a fire and
toast some bread or
make popcorn

Help make a fire with an adult and
toast some bread or make popcorn to
share with you friends.

5. Go to a library and
borrow a book

Go to the library with your friends
from nursery or with you family and
choose a book to borrow.

We hope you enjoy these experiences and learn lots of
new words and skills.

Please circle when you have taken part in an experience.
